### TECHNOLOGIES

HTML  
CSS

JavaScript  
SASS(SCSS)

BEM  
GULP

Git(GitHub)  
SQL

Figma  
Chrome DevTools

### SKILLS

Building responsive and cross-browser websites using HTML and CSS(SCSS)

Using the BEM methodology for writing

Adding interactivity to the site using JavaScript

Using Gulp to split the site into components for more comfortable development

Using Figma for create UI

I am inclined to self-study and always give my best

### PROJECT

#### **Museum**

Responsive, cross-browser site. He has sliders, custom video player, parallaxes with image generation in galleries, cost calculator with modal window.

➤ <https://sk1f112.github.io/MuseumProject/>

#### **Memory Game**

The game was made on the RSS course, there is local storage, image flip animations.

➤ <https://rolling-scopes-school.github.io/sk1f112-JSFEPRESCHOOL/memory-game/>

#### **SnikPic**

Responsive site. With tabs, js-selector and magic line in header, slider.

➤ <https://sk1f112.github.io/SnikPic/>

#### **And some other in GitHub...**

### ABOUT ME

My name is Vladyslav Ostapenko. I am 20 years old, I live in Kiev. have good knowledge in creating websites and I am going to the goal of becoming a FRONTEND DEVELOPER

#### **Portfolio**

Responsive, cross-browser site. The site has a translation into two languages, tabs, switching the color theme.

➤ <https://sk1f112.github.io/portfolio/>

#### **Travel**

Pretty and responsive website. With beautiful slider and sticky header, parallaxes, popup in popup.

➤ <https://sk1f112.github.io/Travel/>

#### **Hola Fashion**

One of the my first website project. Make responsive slider without libs.

➤ <https://sk1f112.github.io/HolaFashion/hola-fashion/>

### EDUCATION

National Aviation University "Cybersecurity"  
(2019 - present)
